

Natura

DRUK I BAWĘŁNA

The colour palette presented in this document may slightly differ from the actual product's fabric colour. This is due to changes in chemical substances, dyes or the raw material itself used in the production of the fabric. Samples of the Pantone colours are provided as guidance and approximate fabric colours from which we produce our cotton goods.

Raw fabrics are available only in natural colour (ecru) and unfortunately, it is not possible to define their colour. The tone of colour depends on the yarn that was used in the fabric production.

Therefore, complaints based on a different colour tone of the fabric to what was sent to a Client as a sample **will not be considered. Fabric colours are based on our Fabric and Colour Guide.**

Please note that as we specialise in bespoke products we do not stock them in our warehouse, and are only able to provide samples of products that we have recently manufactured for other Clients. This means that samples may not correspond with your specifications in full. However, they certainly show the quality of fabric, sewing and printing method, as well as our work standard.

If you cannot find the fabric colour you are interested in in our guide, Natura offers fabric dyeing according to the Pantone Palette. Please do not delay your decision as this very unique process might add couple of days to the lead time.

Additionally, we are open to produce cotton goods from Clients Media, whether it is fabric, labels, string or tapes, Natura is the place to contact.

If your chosen fabric colour is unavailable, we offer the possibility of fabric dyeing as well. The minimum quantity of order will be confirmed by the sales team at Natura.
